

Trades Assistant Wanted

Broome Air Maintenance is seeking candidates with mechanical aptitude for its Trade Assistant program. The program looks at the aptitude and communication skills of its Trade Assistance to advance into Apprenticeships with an Aircraft Maintenance Engineer Licence outcome.

JOB TITLE: Aircraft Maintenance Trades Assistant

JOB TYPE: Casual or Full Time for the right applicant

LOCATION: Broome Air Maintenance – Hangar 2 Gus Winkel Drive, Broome International Airport

SUPERVISOR/MANAGER: Chief Engineer

MAIN DUTIES/RESPONSIBILITIES:

- Assist engineers with aircraft maintenance tasks
- Complete daily tooling and parts checks
- Complete daily maintenance of workshop equipment
- Maintain clean and orderly workshop

SKILLS & EXPERIENCE

Qualifications:

- WA drivers licence
- Forklift licence (not essential, but would be an advantage)

Experience:

- Experience working with trades (not essential, but would be an advantage)
- Experience working with hand tools (not essential, but would be an advantage)

Skills:

- Mechanical aptitude and use of hand tools
- Excellent verbal and written communication
- Proactive, organised and able to meet deadlines

PERFORMANCE GOALS:

- Complete routine daily tasks efficiently and without prompting
- Ensure workshop is clean and presentable at all times
- Work with engineers and customers professionally at all times

ABOUT BROOME AIR MAINTENANCE:

- Aircraft maintenance engineers need to be professional and conscientious to make sure aircraft are safe to fly. This is a dynamic and challenging industry, where every day is different and your career can literally take-off!
- Broome Air Maintenance is committed to providing job progression for its Aircraft Maintenance team. For Trades Assistants, this means the opportunity to be offered a Traineeship to become a Licenced Aircraft Maintenance Engineer for those that have the right aptitude and attitude for the role.
